ASHWINKUMAR M S

Aspiring Engineer & Product Builder — AI/ML

Shimoga, Karnataka · 9632418138 · ashwinkumaralpha2006@gmail.com

PROFILE SUMMARY

Third-year B.E. student in Artificial Intelligence & Machine Learning with a strong interest in product building and applied AI. Independently conceived and prototyped two full products — BayHold, a FASTag-linked smart parking platform, and Nivas, a rental housing marketplace — each carried from problem statement to working demo and investor pitch deck. Comfortable using AI-assisted tools to move fast from idea to a testable product.

EDUCATION

Jawaharlal Nehru New College of Engineering Expected Graduation: 2028

Bachelor of Engineering (B.E.) — Artificial Intelligence & Machine Learning

Currently in 3rd Year

PROJECTS

BayHold — FASTag-Linked Smart Parking Platform — *Founder & Product Lead* 2026

- Conceived and designed an end-to-end smart parking product: drivers reserve a bay online, hold it with an advance payment, and settle the final fare automatically on exit via FASTag, UPI/QR, or an in-app wallet.
- Built a working interactive prototype (booking flow, digital wallet, QR/UPI payment, live bay map) using AI-assisted rapid development tools, and prepared an investor pitch deck covering market sizing, business model, risks, and financial ask.

Nivas — Verified Rental Housing Marketplace — *Founder & Product Lead* 2026

- Designed a direct rental marketplace where owners list verified homes with transparent pricing, and renters search by location, negotiate price, and book online — removing the broker entirely.
- Built a working prototype spanning ID-verified logins, map-based listings, in-app price negotiation, and online payment, alongside an investor pitch deck covering market sizing and financials.

Exam Guardrail System — *Hackathon Project* 2026

- Built a system to detect and prevent students from using AI tools to cheat during exams, helping safeguard academic integrity.

SKILLS & CERTIFICATIONS

MongoDB Skill Badges: MongoDB Basics for Students, RAG with MongoDB, Vector Search Fundamentals, AI Data Strategy with MongoDB, AI Agents with MongoDB

Core Strengths: Product thinking, problem framing, data modeling fundamentals, working with AI tools to prototype quickly

AREAS OF INTEREST

Artificial Intelligence & Machine Learning, Product Design, Entrepreneurship & Startups, Applied Data Systems

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- Runner-up, Volleyball Tournament
- Participated in a Hackathon at Jawaharlal Nehru New College of Engineering
- Participated in a Hackathon at P.E.S. Institute of Technology and Management

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge.
